Description of Work

We are pleased to submit the following quote for your consideration. We will provide materials and labor for the installation of a Siemens Voice Fire alarm Panel. The details of the scope of work for the hazards to be protected and the pricing are as follows:

Scope of work:

For the price listed below, C & S Fire-Safe Services LLC agrees to provide all parts and labor for the installation of a Siemens Fire Alarm Voice Evacuation monitoring system. All system components are to be new (unless exceptions are noted below), and the system shall be designed and installed according to the manufacturers listed installation manual and as tested to NFPA 72 and applicable local codes and ordinances.

We will be installing the following items:

- Voice Panel Amplifiers and Main panel equipment
- 3 PAD Booster Panels
- New Wiring for Speaker Strobes throughout Existing Buildings. Existing wire to be used as able for Data/SLC Circuits
- Correctly Spaced Voice Speakers/ Strobes throughout the entire Highschool including Library, Gym, Annex Building and Metal Shop
- CO Detectors in all Class rooms per NFPA 72 Code
- Final Voice, Fire and Electrical finals.

Related work not included in our scope:

Electrical work must be completed by another contractor as we are not electrical contractors and no charges are included in this proposal for electrical work.

Other Exceptions NOT included in the quote:

- **Drawings will be provided after the quote is accepted and contracts have been signed.**
- **If This job requires prevailing wage for employees than an amendment will be required prior to any works starting.**
- **One dedicated phone line.**
- **Dedicated 120vac circuit.**
- **Central Station Monitoring Cost per Year**
- **Additional Equipment Rentals (if needed)**
- **Third party reporting**

Our price for this proposal is \$138,000.00

**** Payment Terms: Payment is due upon completion and inspection of the installation.****
